Honolulu, HI | (808) 428-9177 | Levicolby808@gmail.com

ACTIVE TS/SCI SECURITY CLEARANCE

PROFESSIONAL SUMMARY

Electromagnetic Warfare Planner supporting U.S. Pacific Command (USPACOM) and U.S. Space Forces Pacific (SPACEPAC) through the Joint Electromagnetic Spectrum Operations (JEMSO) cell. Qualified Space Electronic Warfare Operator (SEWO), Electronic Warfare Operator (EWO), and Space Systems Operator (1C6X1). Experience in joint planning, space fires coordination, satellite operations, and Electronic Support (ES) and Electronic Attack (EA) systems. Developed operational and planning level dashboards in Palantir Maven Smart System (MSS).

PROFESSIONAL EXPERIENCE

Electromagnetic Warfare Planner

TSG Federal (Amentum subcontractor) | Jul 2026 - Present

- Support the USPACOM JEMSO cell with strategic planning and briefings for USPACOM and SPACEPAC leadership.
- Develop and refine electromagnetic spectrum management plans, policies, and EW concepts and capabilities for congested, contested environments.
- Coordinate with partner nations, service components, research laboratories, industry, and the Joint Staff to integrate EW capabilities and improve interoperability.
- Conduct threat and vulnerability assessments; represent SPACEPAC in JEMSO working groups and provide electromagnetic spectrum operations (EMSO) expertise to inform decisions.

Hawaii Air National Guard | Nov 2023 - Present

Fires Direction Officer (FDO), MPA Tour | SPACEFOR-INDOPAC | 2026

- Directed and deconflicted Space Electromagnetic Warfare (SEW) fires and effects supporting theater objectives across the Indo-Pacific.
- Coordinated with U.S. Space Command (USSPACECOM), U.S. Indo-Pacific Command (USINDOPACOM), and SPACEFOR-INDOPAC to synchronize space effects with joint operations.
- Created Concepts of Operations (CONOPs) and Mission Reports (MISREPs) to guide execution and document results for senior leadership.
- Supported Current Operations (CUOPS), Future Operations (FUOPS), and STEP briefings to inform component-command planning and decisions.

Space Systems Operator (AFSC 1C6X1) | Nov 2023 - Present

- Operate ground-based space systems as a qualified SEWO and EWO in support of national defense and joint warfighter requirements.
- Serve as a subject-matter expert on ES and EA weapon systems, advising on employment, configuration, and electromagnetic spectrum management.
- Maintain readiness through training in space domain awareness, system configuration, and tactical reporting.

Senior Contract Representative & Satellite Controller / Maintainer

Five Rivers Analytics | Sep 2024 - Jul 2026

- Served as the on-site senior representative, providing oversight and serving as the primary liaison between the operations crew and program management.
- Directed real-time satellite operations and generated OPSCAP, SYSCAP, and post-pass reports; trained in communications security (COMSEC) procedures for cryptographic keying material.
- Operated and maintained ground station systems for satellite acquisition, tracking, and commanding during contacts, tests, and maintenance activities.
- Diagnosed, repaired, and aligned station hardware using Technical Orders and manuals; performed Preventive Maintenance Inspections (PMI) to sustain readiness.

LEVI COLBY

PROFESSIONAL EXPERIENCE (CONTINUED)

Security Officer

Securitas | Jan 2024 - Sep 2024

- Patrolled client sites, monitored access, and documented incidents; maintained access logs and shift reports to protect personnel and property.

Office Manager & IT / Web Developer

Periodontics Hawaii | Jan 2021 - Oct 2023

- Managed bookkeeping, insurance billing, and scheduling for a multi-provider dental practice; built and administered the practice website (Periohi.com).

TECHNICAL SKILLS

Space & EW Operations: Telemetry, Tracking & Commanding (TT&C); SEW; ES/EA systems; JEMSO; EMSO; electromagnetic spectrum management; space domain awareness.

Planning & Reporting: CUOPS/FUOPS; CONOPs; MISREPs; OPSCAP/SYSCAP; technical writing and operational briefings.

Software & Tools: Palantir Maven Smart System (MSS); ChatSurfer; Microsoft Office Suite (advanced Excel, Word, PowerPoint, Outlook).

COMSEC: Handling, loading, and safeguarding cryptographic keying material and secure communications equipment under accountability procedures.

IT & Networking: Windows administration; LAN troubleshooting; hardware repair and assembly.

EDUCATION

Enlisted Undergraduate Space Training

Vandenberg Space Force Base | Distinguished Graduate

A.A.S., Air & Space Operations Technology

Community College of the Air Force | **IN PROGRESS · EXPECTED 2026**

A.S., Engineering (Natural Science)

Leeward Community College | **IN PROGRESS · EXPECTED 2027**

B.S., Electrical Engineering

University of Hawaii at Manoa | **IN PROGRESS · EXPECTED 2029**

CERTIFICATIONS & LICENSES

- CompTIA Cloud+ (CV0-003)
- Certified Satellite Controller & Senior Contract Representative
- FAA Part 107 - Unmanned Aircraft (Remote Pilot) License

AWARDS & RECOGNITION

Air and Space Achievement Medal: Joint Base Pearl Harbor-Hickam (JBPHH)

Distinguished Graduate: Enlisted Undergraduate Space Training, Vandenberg SFB

Academic Excellence Award: Enlisted Undergraduate Space Training

PROJECTS

SDR Home Lab: Use NooElec RTL-SDR, HamItUp upconverter, and SDR++ for signal capture and spectrum analysis; lab includes dual Radioddity GM-30 transceivers.

Custom PC Builds: Built multiple Ryzen/Radeon workstations and completed laptop RAM and SSD upgrades.

Web Development: XP Labs open-source initiatives website (xplabs.us/initiatives/).
